

# KAINDL LAMINATE CLEANER

Kaindl Info

3

Status June 2010

Page 1/1

Contents: 1 litre, for regular cleaning and care purposes, phosphate-free, biologically readily degradable, sufficient for approx. 500 m<sup>2</sup> of Kaindl flooring.

Art. No.: 000 774

15 packs/cartboard box

## Properties:

- phosphate-free
- biologically readily degradable
- completely hygienic and skin-friendly
- dissolves grease and dirt exceptionally well

## Application:

Add 4 bottle capfuls to one bucket of water (8–10 litres). Wipe the floor clean with a well wrung out cloth. Allow the floor to dry. Important: Do not use a wet cloth.

## Composition:

Non-ionic surfactants, polymers, wax dispersion, perfume.

## Physical and Chemical Properties:

Form	liquid
Colour	opaque
Odour	perfumed

## Change of State:

Melting Point/Range	not determined
Boiling Point	above 100 °C
Flash Point	above 100 °C
Ignition Temperature	not determined
Self-Ignition	not self-igniting
Explosion Risk	not determined
Explosion Limits	not determined
Vapour Pressure	not determined
Density	1.02 g/ml
pH value	8 to 9
Solubility	completely dispersible in water
Solvent Content	organic solvents
Solids Content	not determined

## General Protection and Hygienic Measures:

Keep away from foodstuffs, drinks, and animal fodder. Items of clothing which have become contaminated or saturated with the cleaner must be removed immediately. Wash hands before taking a break or finishing work. Avoid contact with eyes and skin.

## Fire-Fighting Measures:

Suitable extinguishing agents: CO<sub>2</sub>, extinguishing powder or water jet.

## Ecological Aspects, Disposal and Storage:

Water Endangerment Class 1 (own assessment) Do not allow to escape into drains!

Disposal: Relevant regulations issued by the local authorities must be observed.

Storage: No special precautions necessary. **Protect from frost!**
